

SATURDAY STUDIOS

ABOUT THE PROGRAM

For over seventy-five years the Saturday Studios program at Massachusetts College of Art and Design has served a dual purpose: offering elementary through high school students an affordable opportunity to engage in the process of art making and supporting the development of MassArt students as art educators. Courses in a variety of disciplines and media are available by grade level, allowing students to explore and strengthen their creativity and creative problem solving. Classes are taught by MassArt students majoring in art education and supervised by MassArt art education faculty. All classes take place on the MassArt campus, a unique and extraordinary urban college setting devoted exclusively to the visual arts.

WHO IS ELIGIBLE?

These non-credit courses are open to all interested students, regardless of their level of experience in art. There are no prerequisites or portfolio reviews. There is also a no cost parent/guardian drop-in group each week that provides a wide variety of activities ranging from gallery and museum tours, to guest speakers and art-making sessions. This group provides parents and guardians with a wonderful opportunity to connect with their children on art-related issues.

The college is committed to an admissions policy that does not discriminate on the basis of race, creed, sexual orientation, gender, national or ethnic origin, religion, or disability. We seek to provide opportunities and experience for all students on an equal basis.

2011

PROGRAM INFORMATION

Schedule

- Dates: March 12-May 7, 2011
- Day: Eight Saturday Mornings
- Time: 9:30 a.m.-noon
- No Class: April 23
- Exhibition: May 2-7
- Closing Reception: May 7, 11:30a.m.-noon

Cost

\$150 for an eight-week session, all materials and supplies included. \$85 additional lab fee for Photography and Computer Animation

Payment is due in full, on or before February 25, 2011

Scholarships

Generous support from the Linde Family Foundation and the Civil Society Institute contribute to the available financial aid for students in need of assistance. Scholarships are available on a first-come, first-served basis. To apply, please submit family financial information on the application form, along with a letter of support from the applicant's art teacher or school principal. A commitment to attend all classes is expected.

A \$25.00 payment should accompany the application. If the scholarship amount awarded does not meet your financial needs, you will receive your payment back if you respond to the award letter by February 11.

About MassArt

Located in the heart of Boston, Massachusetts College of Art and Design is one of the leading colleges of its kind in the United States. It has a proud 135-year legacy as the nation's first and only independent public art college and the first art school in the country to grant a degree. With visionary leadership and a world-class faculty, MassArt is at the forefront of art and design in the twenty-first century.

CLASSES OFFERED

Art Explorations (Grades 4 & 5)

This class explores a variety of ways of making art through drawing, painting, printmaking, and working with clay and other materials. Each of the eight lessons connects to a theme that ties them all together.

Comic Book Art (Grades 6-8)

Develop and expand a personal comic style using dreams, superheroes, and the works of famous artists. Content addresses story, character development, and drawing techniques.

Sculpture (Grades 6-8)

Working with sculpting techniques and materials such as fibers, papers, wire, clay, and found objects, students create three-dimensional art works through a series of innovative assignments.

Painting (Grades 6-8) (Grades 9-12)

These two courses, one for middle school and one for high school students, provide the opportunity to develop expressive and technical skills in painting. Both traditional and non-traditional methods are introduced. Painting media such as acrylics and watercolors are explored.

Fashion and Fibers (Grades 7-12)

Explore how artists use cloth, paper, and other materials. In this course, students make wearable art and 3D objects from a wide range of soft media that may include sewing, printing on fabric, beading, paper-making, batik, knitting, weaving, and more.

Sculpture (Grades 9-12)

Earth, water, fire, and air: art in clay relies on all these elements of nature. Explore making practical and sculptural forms through hand-building and wheel-throwing. From useful objects to fanciful clay-mations, this course will expand your ideas of what clay can do.

21st Century Self (Grades 9-12)

Explore techniques in 2D, 3D, and 4D media to make representational, expressionistic, conceptual, and subjective self-portraits for the 21st Century. Use new media (e.g., photoshop, the web, installations) and traditional media (e.g., drawing, painting, sculpting). Students often use this course to strengthen portfolios for college applications.

Animation (Grades 9-12)

Create a 2D animation using various computer animation programs. Students improve storytelling techniques as they develop story with the processes of computer animation. NOTE: Additional \$85 lab fee required.

Photography (Grades 9-12)

This course introduces black and white photography techniques including film development, printing, camera operation, and composition. Students need to bring their own 35mm cameras. NOTE: Additional \$85 lab fee required.

The Figure (Grades 11 & 12)

Explore traditional and innovative ways of rendering the human figure. Students often use the course to strengthen portfolios for college application. A variety of media and styles are presented. Parental consent is required due to use of nude models.

Advanced Studios (Grades 11 & 12)

This course helps students review and expand their portfolios by creating cohesive and independently focused bodies of work that can be used for college application. Using both observation and imaginative approaches, students refine ways to express their personal intentions in both 2D and 3D materials. Parental consent is required due to the possible use of nude models.
